

## SSPN35 - 350KG SACK TRUCK

With the SSPN35 sack truck, you can move loads of upto 350kg. If your workplace is large or small, a sack trolley is a great multi-purpose tools to have, that doesn't cost the earth.

Ergonomic designed and kind to the worker, sack trucks can be used not just for moving sacks but for moving other pieces of equipment and merchandise including heavy boxes.

Whether used little or often, the SSPN35 can help to prevent workplace injury by ensuring employees do not need to lift heavy loads over any distance. They are easy to handle and the trolley is fitted with large pneumatic tyres - this not only gives a sturdy balance with easy manoeuvring, but it is forgiving with slightly uneven surfaces, even when loaded with a heavy item.

In short, the SSPN35 is Ergonomically designed, easy to handle, fitted with large pneumatic tyres. It is 1200 high x 460mm Width.
