

## HLT10 Scissor Lift Pallet Truck

The HLT10 is a dual stage cylinder scissor lift pallet truck with a 1000kg capacity.

Due to the scissor action, High lift pallet trucks are designed to be used only with open bottomed pallets.

Maximum lift height on this unit is 800mm, with across fork dimensions of 540x1170mm. With independent fork sizes of 160x50mm section.

High Lift Pallet Trucks are useful when loading / unloading pallets and help to minimise back injury caused by repetitive strains, particularly on production/piece worker lines.

### Specifications:
