MJCPT1.7 Work Platform

Access step

Foot brakes

Forklift pockets

Compact size

Mobile aerial work platforms are more versatile than mobile towers, as their height can be adjusted at the touch of a button. The unit has 4 swivel castors (2 lockable) and will pass through a standard door frame.

Supplied with a 12 month LOLER certificate and CE certified.

Access platforms are often used for maintenance work in warehouses, schools, shopping centres and hospitals where health and safety are of upmost importance.

Compact size provides access in and around confined work areas.

Lightweight design allows it to be transported by a single person.

Slide out tray for easy maintenance access.

Standard equipment

- Battery charge indicator
- Self-lock gate on platform
- Leveling indicator
- Safety brackets
- Extended stop button
- Emergency lowering system
- Dual locking castors
- Forklift pockets

We provide a nationwide 2-3 day delivery service with next day delivery available on request.
