

LOAD CAPACITY	2000kg
DESIGNED FOR REEL SIZES	800 - 1200mm
FORK DIMENSIONS (W x L)	1000 x 1150mm
GAP BETWEEN RAISED POINT OF FORKS	540mm
GAP BETWEEN THE FORKS	870mm
STEERING WHEEL DxW	200x50mm
TANDEM LOAD ROLLER DxW	80x70mm

AC20R1000 Reel Carrying Truck

The AC20R is a pallet truck designed to carry cylindrical shaped objects, such as paper rolls, textile rolls and drums.

With a larger than average load capacity of 2000kg, this reel carrying truck be used for handling many types of industrial rolls and bales.

It features low noise double PU rollers front and rear and a top quality hydraulic pump - controlled through a 3 position lever on the handle.

The AC20R1000 has a fork size of 1000 x 1150mm long, with a gap between the forks of 540mm. The gap between the high point of the forks is 870mm, so it is designed for roll diameters from 800-1200mm
