## TFD70 700kg Double Scissor Lift Table

The TFD70 is a double scissor action table truck, with a 700kg capacity and a 1.5m lift height and a table top size of 1220x610mm. The extra height from the double scissor action make the truck even more versatile.

This mobile double scissor lift table has such uses as assembly lines and moving computer servers. Table trucks have a multitude of applications in many areas of industry.

It features a 700kg lift capacity, whilst maintaining a lift height of up to 1.5 metres. There is a foot operated hydraulic lift for raising the table top to the desired height, whilst descent is controlled with a hand operated trigger.

The TFD70 table truck can lift 700kg from a minimum lift height of 445mm upto a maximum lift height of 1500mm.
