

LOAD CAPACITY	1000kg
TABLE TOP SIZE	1450x1100mm
SIZES BETWEEN U SECTION (WxL)	575x1050mm
MAXIMUM TABLE HEIGHT	800mm
MINIMUM TABLE HEIGHT	80mm
LIFTING TIME	18 Seconds
LIFTING SPEED WITH LOAD	42mm / Second
LOWERING SPEED WITH LOAD	48mm / Second
MOTOR - 3 PHASE AC380v/50hz (Fitted with 5 pin male connector)	0.75kW
CONTROL PANEL CABLE	2.8m
UNIT WEIGHT	235kg

We provide a nationwide 2-3 day delivery service with next day delivery available on request.  
All of our products come with a twelve limited month warranty

## HTF-U U-SHAPED ELECTRIC LIFT PLATFORM

HTF-U is a static electric lift platform in a pallet shaped 'U' section.

It has a low profile, which allows you to use standard pallets and either a euro pallet truck or fork lift to drop a load onto the table.

Once the pallet or load is placed onto the table, the load can then be raised up to a height of up to 800mm. This whole operation is particularly good for production line piece work, minimising physical work, resulting in more efficient productivity and reducing repetitive strain injury (RSI) often caused by this type of production requirement.

The unit comes with a remote power pack which has a pedestal fitted to it, which has control unit housing up and down buttons, along with safety stop button.

As a further safety feature, this static electric lift table also has safety cut off bars, which halt descent when it comes into contact with any obstructions.
