STEERING ROLLER	200x50mm
TANDEM LOAD ROLLERS	80x70mm
FORK WIDTH	160mm
GAP BETWEEN FORKS	220mm

Wide Stainless Steel Hand Pallet Truck

Stainless steel pallet trucks are widely used for carry pallet containing meat, sea products, dairy products, wines, beverages, chemicals etc. and are ideal for working in low temperature conditions, such as taking goods in and out of cold storage.

The ACS20B has a 2000kg capacity and fork dimensions of 685x1220mm, which is better suited and give more stability when they are moving the wider pallets. It features a high quality stainless steel hydraulic pump.

Supplied as standard with Nylon Wheels, which are known to be better for damp or harsh applications.
