SFH10-W1.2M Manual Straddle Stacker

With upto 1000kg capacity and a 1.6m lift height

Straddle stacker trucks are designed to go around the outside of the pallet, allowing them to be used on both closed and open bottom pallets. Please check the dimensions, to ensure it will work with your pallets.

The SFH10-W1.2M has a 1000kg capacity and a lift height of upto 1.6 metres.

It has hand and foot controls for the lifting, plus a heavy and robust steel profile construction.

It is precision engineering for smooth operation and offers an economical lifting solution for lifting pallets, skids and dies.

Width across the centre forks is adjustable between 310mm and 740mm, whilst fork length is 900mm.

Width between the straddle legs is 1190mm.

CE approved.

Suitable for both Closed and Open Pallets

We provide a nationwide 2-3 day delivery service with next day delivery available on request.
All of our products come with a twelve limited month warranty
