

LOAD CAPACITY	2000kg
DESIGNED FOR REEL SIZES	1200 - 1600mm
FORK DIMENSIONS (W x L)	1150 x 1150mm
GAP BETWEEN RAISED POINT OF FORKS	760mm
GAP BETWEEN THE FORKS	1040mm
STEERING WHEEL DxW	200x50mm
TANDEM LOAD ROLLER DxW	80x70mm

AC20R1500 Wide Reel Carrying Truck

The AC20R1500 is a pallet truck designed to carry cylindrical shaped objects, such as paper rolls, textile rolls and drums.

With a larger than average load capacity of 2000kg, this reel carrying truck be used for handling many types of industrial rolls and bales.

It features low noise double PU rollers front and rear and a top quality hydraulic pump - controlled through a 3 position lever on the handle.

The hydraulic pump is a whole cast unit, robust and durable with fine control of the lowering speed - also featuring an overload valve.

The fork size is 1150mm width x 1150mm long, with a gap between the forks of 760mm. The gap between the high point of the forks is 1040mm, so it is designed for roll diameters from 1200-1600mm

Reel Carrying Trucks are designed for carrying horizontal transport loads, including reels, cable drums and coils.

Conforms to EN1757-2
