

Load Capacity	800kg
Maximum Tilt Angle (Load reduces)	40 degrees
Maximum lifting height	900mm
Total Length	1690mm
Total Width	730mm
Total Height	1420mm
Length of the Forks	1140mm
Width of each Fork	150mm
Minimum height over the floor	87mm
Width over the Forks	540mm
Width between the forks	240mm
Dimensions across the forks	540x1140mm
Lifting speed with load >=	0.05m/sec
Lifting speed without load >=	0.07m/sec
Lowering speed with a load	Controllable
Battery	2x12v/60Ah
Electro hydraulic aggregate	12v / 700w
Weight	271kg

EHST0809 Semi-electric High-Lift Pallet Truck With Tilt Facility

A semi-electric high lift pallet truck is a useful addition for piece workers, on a production line, anywhere where you might be working with raised height open bottomed pallets or stillages. This EHST0809 version has a Tilt facility, which gives a large scope of extra possibilities for those more unique applications.

When used in it's normal horizontal position, the load capacity is 800kg. When used in it's controllable tilted position the load capacity reduces, dependent upon the load centre and angle.

Fixed fork stabilizers provide good stability and they can even be used to load and unload open bottomed cages and pallets from transits vans.

We provide a nationwide 2-3 day delivery service with next day delivery available on request.
All of our products come with a twelve limited month warranty
