Fork length	1150mm
Net Weight	85kg

## HP-ESR570 Weighing Scale Pallet Truck

A weighing scale pallet truck with scale offers a 2 in 1 solution, something that is able to weigh a pallet and move the cargo around. This operation saves time and improves efficiency, as loads can quite often be located in different areas.

A weighing scale truck allows you to weigh the cargo you want, where you want.

The HP-ESR570 is a quality weighing scale truck which has a 2000kg capacity, but readout is in just 1kg increments/steps.

The dimensions across the forks are 570x1150mm, which means it can weigh almost all of the common pallet sizes. If you are unsure of which truck is suitable for your pallets, please contact our technical sales department.

The weighing scale head has a keypad and features an automatic tare function, whilst the LCD display shows all the weighing measurements clearly, with good viewing angles.

It is powered by 4 x AA 1.5v batteries - we also sell a battery charger than comes with 4 rechargeable AA batteries, which is a popular choice for many of our customers.

This pallet truck weigh scale can also weigh in pounds (lbs) or kilograms (kg).

We provide a nationwide 2-3 day delivery service with next day delivery available on request.  
All of our products come with a twelve limited month warranty
