HS1015 Manual Straddle Stacker Truck

HS1015 is a manual stacker truck, with straddle legs, a 1.5m maximum lift height and a 1000kg capacity.

Straddle legs are design to go around the outside of a pallet, allow the forks to pick up a closed bottom pallet or stillage that fits between them.

This heavy duty design of stacker truck, has a quick lift system and accurate steel construction. The forks are of a heavy duty 1 piece 'C' section fork construction, for the greatest strength.

The pump has Unique quick lift technology. and has a top of stroke bypass valve built-in. Both the hydraulic pump and cylinder are fitted with high quality German seals.

With fixed dimensions across the forks of 550x1150mm, and with dimensions between the straddle legs of 1270mm - this unit will pick up the most common of Euro Pallets (1200x800mm) and the most common of the Blue Chep pallets (1200x1000mm).

Conforms to EN1757-1: 2001
