Fork length	1170mm
Net Weight	122kg

ACX10M Manual Scissor Lift Pallet Truck

ACX10M is a manual scissor lift truck, with 1000kg capacity and a lift height of 800mm.

It is designed to be used to work as a lifting table, marshalling table, work bench, or standard pallet truck.

It has closed fork tips and a reinforced chassis to ensure a higher life span, whilst the handle is ergonomically designed for comfort and features a thicker grip casing.

Encased in an improved hydraulic body, the single cylinder pump design is more robust and requires less maintenance.

The chassis has an upper steering bearing for less friction and steering force. It also features anti-tilting skid feet.

CE approved. Verified and tested structure, endurance tested with 1000 lifts, without any signs of deformation, oil leakage etc.

Due to the scissor action, this unit is designed for use only with with open bottom pallets or skids.

We provide a nationwide 2-3 day delivery service with next day delivery available on request.
All of our products come with a twelve month returned to base limited warranty
