## AC25HB Hand Pallet Truck with Brake

The AC25 HB is a hand pallet truck, with an addition hand operated brake. It has a 2500kg capacity and has dimensions of 540x1150mm across the forks - the most common size of pallet truck.

The pallet truck is based upon a best selling unit which has a German designed pump unit. It has a quality steel profile and German Wagner standard painting system.

All the pivot points on the pump truck are greased to ensure effortless steering and good manoeuvrability.

The unit is supplied with double PU rollers front and rear, which ensures quieter runner and a better distribution of weight when moving larger loads.

All pallet truck braking mechanisms are only for slowing the progress of travel. To stop a moving pallet in an emergency, Health and Safety stipulates the pallet must be lowered to the ground.
