DBD25-540x1000 - 2500kg Hand Pallet Truck with Double PU Rollers, with shorter than standard length forks

Main features are as follows:

Integral pump body, major rotating mechanism is equipment with oil-free Self-lubricating bearings or injection nozzles.

After single hydro-moulding, the frame and forks are automatically robot welded.

2500kg load capacity

540 x 1000mm forks (WxL)

The gap between forks is 220mm, whilst the forks themselves are 160mm each

Shorter than standard length, a size often preferred by customers lifting a one metre depth pallet, where no overhang is wanted or where a smaller turning circle maybe preferred.

A top quality hydraulic pump with a slow lowering hand control valve

3 position control handle

210 degree turning radius

Tapered fork tips with entry guide roller

Heavy duty one piece C section forks

Grease fittings at key points for easy maintenance

CE / TUV /GS Approved

Conforms to EN ISO3691-5:2009

We provide a nationwide 2-3 day delivery service with next day delivery available on request.
All of our products come with a twelve month warranty
