

WIDE EXTRA LONG PALLET TRUCK AC20-685X2000

An extra long pallet truck, with wider across fork dimensions for those more specialised applications. A high quality pump based on a German designed pump, this unit offers a 2000kg capacity. Powdered coated finish, soft grip handle and a three position lever with controllable speed lowering. The unit has double PU load rollers and PU steer wheels, which are quieter, less damaging to fragile floor surfaces and this also helps to send less vibration through to the operators hands.

Model	AC20-685X2000
Capacity (kg)	2000
Width across the forks (mm)	685
