

X32 + Y32 - 64 TONNE LOAD MOVING SKATE SET

This 64 tonne Machinery Roller Skate set is ideal for those extra heavy duty applications.

It comprises of X32 - a steerable 32 tonne skate with turntable and 2 x Y32 - 16 tonne trailing skates - giving a distributed load capacity of 64 tonnes.

X32 has a 32 tonne capacity and consists of 32 rollers containing a total of 64 bearings, along with a thrust bearing, supporting a 250mm diameter turntable. The handle length is 1760mm.

The 2 - Y32 units each consist of 12 rollers containing a total of 32 bearings, with a plate size of 420 x 200mm. The supporting bar between each unit allows for adjustment between 800 and 2000mm.

Skates are powder coated with a durable finish.

We also keep a range of hydraulic lifting and toe jacks, to assist with lifting the machinery.

Polyutherane rollers are used.

As with all machinery skates, it is recommended the floor is level, clean of debris, the load will not tip over and you have means of controlling the movement of load once moving.

Model		Capacity (Ton)	No. of Rollers	Dimensions of Turnplate (mm)	Length of Handle / Adjusting Length of Lever (mm)	Overall Size (mm)	Nett Weight (kg)
X32+Y32	X32	64	16	250	1760	1103x690x169	310
	Y32		16	420 x 200	800-2000	230x420x169	

We provide a nationwide 2-3 day delivery service with next day delivery available on request.
