

Single Wheel Nylon 2000kg Pallet Truck

| PT2000NY-SINGLE | | |
|-----------------------------|----|-------|
| Capacity | kh | 2000 |
| Fork Overall width | mm | 550 |
| Fork length | mm | 1150 |
| Min Fork Height | mm | 85 |
| Max Fork Height | mm | 200 |
| Fork Width | mm | 160 |
| Gap between the forks | mm | 230 |
| Nylon Steering Wheel Single | mm | 180 |
| Nylon load rollers Single | mm | 80x93 |

PT2000NY-Single has single load rollers in Nylon and has a 2000kg capacity.

With forks of 550mm across and 1150mm in length, the truck is designed to fit the most common Euro pallets (normally 80x120cm, or 100x120cm) - but they will also fit larger pallets.

The truck has a strong chassis thickness with powder coated finish.

It has a 3-position hand control lever - Raise, Lower and Neutral.

Nylon wheels being a harder material are more hard wearing, so not as quiet running - but there are advantages to this. They are not normally damaged by spillages and debris and with less friction is produced, this makes the pallet truck easier to manoeuvre.
