

TFD35-NU Double Scissor Lift Table 350kg

TFD35-NU is a double scissor lift table with a 350kg capacity.

This popular table has a maximum lifting height of 1.5m and the table top size is 920x520mm.

It is raised for a four operated level to the desired height and then can be lowered using a the hand control.

Lift tables have multiple uses, such as feeding tables on an assembling line, moving rack servers or for raising a load to a more suitable working height.

LOAD CAPACITY (kg)	350
