

TFD35S PARTIAL STAINLESS STEEL DOUBLE SCISSOR LIFT TABLE

TFD35S is a 350kg capacity scissor lift table with a SUS304 structure and galvanised pump and cylinder.

The table top measures 500x910mm and lifts between a height of 355mm up to 1300mm.

Weighing 105kg, it is easy to push around on its 125mm diameter Polyurethane wheels. The two rear wheels are braked.

The truck is raised with a foot pedal and lowered with some control using the hand lever.
